GRADE 4 SCIENCE AND TECHNOLOGY

SCHEME OF WORK · YEAR 2026 · KENYA · THREE TERMS

School year: 2026. This school year has three terms. The scheme shows the sub-strands taught each week, the learning experiences and the way the teacher checks learning.

Strands covered this year:

- Living things and their environment
- Materials, light and sound
- Machines, the sky and the weather

Term 1 has 13 weeks. Term 2 has 13 weeks. Term 3 has 10 weeks. Teachers follow the order of the sub-strands. A sub-strand may be taught again in a later term when the scheme says so.

> An invented scheme of work for testing a reader. Not copied from any ministry document.

TERM 1 · 13 weeks

Weeks	Sub-strand	Learning experiences	Assessment
1 to 3	**Parts of a flowering plant**	Learners bring a small plant to class, name the root, stem, leaf and flower, and draw and label it.	Labelled drawing
4 to 6	**Animals and where they live**	Learners group animals by where they live and talk about the homes of insects, birds and fish near their school.	Oral questions
7 to 10	**Properties of materials**	Learners test wood, metal, plastic and cloth to see which float, bend, break or let water through, and record the results in a chart.	Practical task and chart
11 to 13	**Sources of light**	Learners list sources of light such as the Sun, a torch and a candle, and sort them into natural and made by people.	Checklist

TERM 2 · 13 weeks

Weeks	Sub-strand	Learning experiences	Assessment
1 to 3	**Types of soil**	Learners collect sand, clay and loam, rub each between their fingers and find out which holds water best.	Practical task
4 to 6	**Water: uses and sources**	Learners find where water in the community comes from, list its uses at home and talk about keeping it clean.	Group poster
7 to 8	**Electric circuits**	Grade 6 content, shown for the teacher only. Do not teach this in Grade 4. It is listed here because the school's old scheme had it.	None
9 to 10	**Sound and how it travels**	Learners make sounds with a drum and a rubber band, and feel how sound moves through air and a table.	Practical task
11 to 13	**Simple machines**	Learners use a lever, a ramp and a pulley to lift a load and say which makes the work easier.	Observation checklist

TERM 3 · 10 weeks

Weeks	Sub-strand	Learning experiences	Assessment
1 to 2	**Sources of light**	Taught again, with shadows. Learners use a torch to make shadows of different sizes on a wall.	Practical task
3 to 4	**The Sun, Moon and stars**	Learners observe the sky in the evening and the morning and draw what they see.	Sky diary
5 to 6	**Weather and seasons**	Learners keep a weather chart for two weeks and name the seasons of the year.	Weather chart
7 to 8	**Caring for our environment**	Learners plant a tree seedling and look after the school compound.	Class project
9 to 10	**Pollution and waste**	Learners sort waste into things that rot and things that do not, and plan how to reduce rubbish at school.	End of year test

> Sources of light is taught in Term 1 and again in Term 3. Electric circuits is Grade 6 content.
